

PDI Today

Our First Year: Growth, Accomplishment, Enthusiasm

Parker Design International (PDI) World Group was founded in June 2006, building on a long tradition that began with The Leonard Parker Associates. In six short months, we grew from an idea in Steve Huh's mind to one of the top 10 architectural firms in Minnesota.

From a consortium concept to 30 members in 6 countries encompassing over 5,000 people.

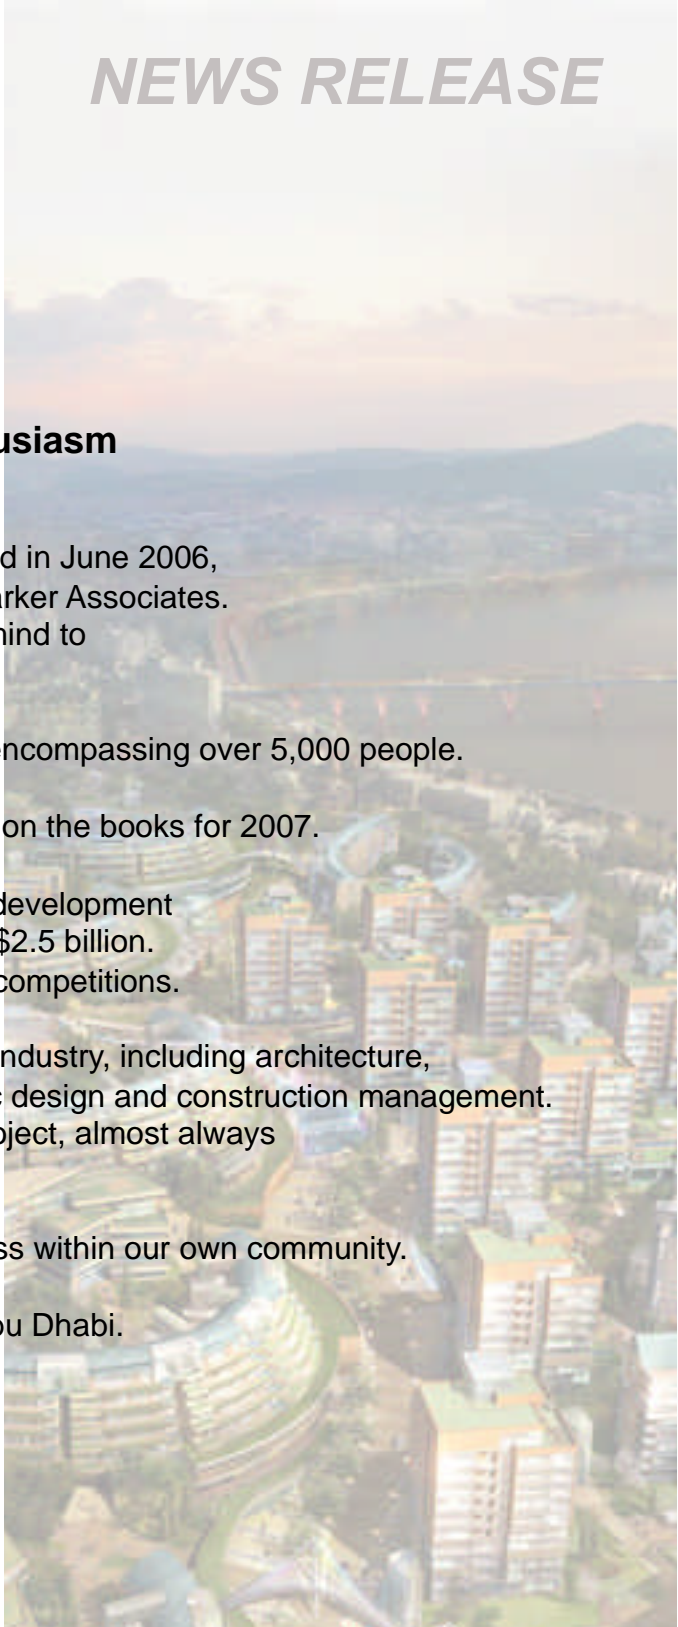

From a lot of goodwill to over \$12 million in billings already on the books for 2007.

PDI won an international design competition for a major redevelopment in the very heart of Seoul that carries a total investment of \$2.5 billion. This made 29 wins in 49 entries for Stephan Huh's design competitions.

We now have experts in almost every facet of the building industry, including architecture, engineering, planning, interior design, landscaping, graphic design and construction management. This means we can deliver a specialized team for every project, almost always with a local presence anywhere in the world.

We achieved international acclaim and a growing awareness within our own community. Outside the U.S. we are working in Korea, China, Vietnam, India, Dubai, Australia, Pakistan, Malaysia and Abu Dhabi.

It was a great 2006 – thanks to our dedicated staff, consortium members, partners, friends – and clients. We look forward to a great 2007 and ...

PDI Today

...Here are some of the people that will get us there:

SLAB, Los Angeles, CA
IOTA, Minneapolis, MN
oslund.and.assoc. Minneapolis, MN
